WHAT WE DO

BED LINEN

Bed linen ranges include 200 and 300 thread count percales, 400 thread count Egyptian cotton, 600 thread count sateen fabrics, and pure linen. With a focus on natural fibres, we ensure exceptional comfort for your guests through our carefully sourced pure cotton and pure linen fabrics.

BEDDING

Bedding that complements our fabric range – including duvets, pillows, throws, and protectors. We supply a full solution for your design and practical linen needs.

TABLE LINEN

Table linen for your dining rooms and restaurants can be customised to suit your needs in sizing, styling, embroidery, and labelling.

TOWELS

We provide luxurious, heavier towels that are perfectly suited to your design needs. Our snag-proof towels feature a pure cotton pile, making them highly absorbent, and are available in two weights designed to withstand up to 200 industrial washes. Ideal for residential or commercial needs.

THE DIFFERENCE

to be experienced

Locally manufactured:

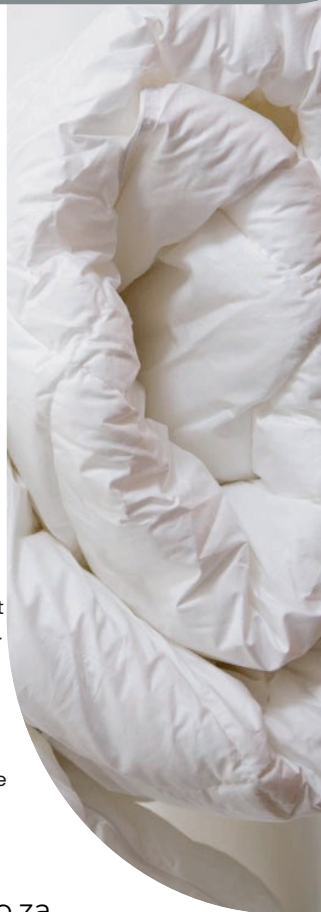

We manufacture our products in Paarl from imported fabrics, giving us the ability to test and inspect the fabric and products – all under our control.

Long lasting:

The fabrics we use are tested for durability and other physical parameters to ensure that we only use high-quality materials. We make sure our products are suitable for the design industry, where performance, style, elegance and longevity are of the utmost importance. The finishing and sewing of our products are of exceptionally high quality and will not deteriorate or lose their integrity after just a few washes.

Made to fit:

The finished products are carefully oversized to accommodate shrinkage that will occur during washing and tumble drying.

Luxury:

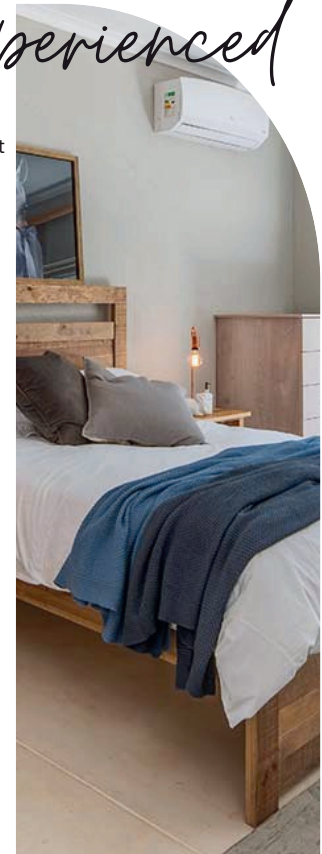

Our pure cotton fabrics offer comfort and luxury, thanks to their smooth surface texture and the excellent moisture absorbency of cotton.

No pilling:

Our pure cotton fabrics are resistant to pilling – the formation of small fibre balls on the fabric surface – which often occurs with many poly-cotton fabrics.

Duvets and pillows:

All products are fully machine-washable and tumble-dryable. The down is thoroughly washed and sterilised to reduce allergies. Each product is encased in pure cotton percale fabric, ensuring exceptional comfort.

We also offer after sales service on the maintenance of our linen range

Customised Products

Our products can be customised in sizing, design, and embroidery.

WE CAN CUSTOMISE IT

EMBROIDERY

Embroidery brings a touch of artistry and individuality to the Linen Drawer collection. With exquisite craftsmanship and delicate detail, it transforms each item into something truly special – beautifully finished and rich in texture and charm.

PIPING

Piping adds a refined finishing touch to the Linen Drawer bed linen range. Available in a selection of colours, it introduces subtle contrast and character, beautifully outlining the edges and rounding off each item with a tailored, designer look.

SATIN STITCH

Satin stitching adds understated sophistication and depth to the Linen Drawer bed linen range. The fine, lustrous thread detail creates a smooth, decorative finish that subtly frames each piece, giving it a timeless and luxurious appeal.

SIZE

Customised sizing ensures that every Linen Drawer item fits perfectly. Whether for extra-deep mattresses, unique pillow dimensions, or bespoke requirements, each piece is tailored with precision to deliver comfort, style, and a flawless finish.
